

Scott Thomson            Age: 38  
Occupation: Pastor/Business owner

If elected, I will focus on helping make Oroville a place where families and businesses can thrive. As a business owner and employer, I understand the challenges of running a small business. I plan to become an advocate for current local businesses and welcome new businesses into our city. There is a lot of potential in our small town for local businesses to start and grow. My goal is to help facilitate that potential to become a reality.

As a father of two young boys, it is my burden for Oroville to become an environment where our next generation has every opportunity to succeed. We must prioritize our families and children in our public policies, practices and decision making. In order for our families and businesses thrive, we must have quality police and fire services. I plan to work with our police and fire departments to ensure the safety of our parks, streets and neighborhoods.

Finally, none of the above is possible if Oroville does not operate in a fiscally responsible manner. Therefore, I will have no higher duty than consistently working to balance the City's budget.
