

**NOTICE TO AIRPORT USERS**  
**PROPOSED AIRPORT IMPROVEMENT PROJECTS**  
**Oroville Municipal Airport, Oroville, California**

**Posted November 3, 2017**

**Project Description and Justification**

As per Order 5100.38D Section 3-20 Consultation with Airport Users. The City of Oroville proposes to request Airport Improvement Program Grant funds for the following project at Oroville Municipal Airport, Oroville, California. While this notification does not require users to provide input or agree with the proposed project, the City is providing a reasonable opportunity for users to provide input to the proposal listed below.

Construct Taxiway K (50' x 425') - Currently access to the threshold at Runway 13 is from Taxiway K on the south side of Runway 13-31. To access the threshold at Runway 13 from the north side requires the pilots to cross Runway 13-31 at Taxiway L and proceed on Taxiways L and K. Construction of Taxiway K North will provide access to Runway 13 from the north side. This project will include new pavement, taxiway lights, and marking and is designed to enhance safety for the airfield and aircraft using the airport.

The threshold of Runway 20 has been relocated approximately 1,800 feet. The proposed construction of Taxiway K North is located on the original section of Runway 20 pavement. To avoid the confusing intersection of runway and taxiway pavements, the section of pavement on the extended section of Runway 20 will be removed to such an extent that a blast pad to Runway 20 remains as shown on the Project Sketch.

Project Date: Construction is scheduled to occur in the spring/summer of 2018.

Impacts: Construction is scheduled to last 40 working days. Runway 13-31 and Runway 2-20 will be closed during portions of this construction. Runway 13-31 will not be closed the same time that Runway 2-20 is closed. There will be no other restrictions at the airport and it will remain open during construction.

Total Project Cost: \$730,000 with 90% funding through FAA Airport Improvement Grants.

**Comments or Questions:**

Comments or questions must be received by December 5, 2017. Comments or questions on this notice should be directed to:
