RE: REGULATION OF COMMERCIAL CANNABIS BUSINESSES

DATE: JANUARY 15, 2019

SUMMARY

The Council may consider an amendment to the Oroville Municipal Code related to the regulation of commercial cannabis businesses in the City of Oroville. A first reading and public hearing was held on January 2, 2019.

DISCUSSION

In 1996, the voters of the State of California approved Proposition 215 entitled "The Compassionate Use Act of 1996" or "CUA" to enable seriously ill Californians, under the care of a physician, to legally possess, use, and cultivate marijuana for medical use under state law. In 2003, the California Legislature adopted SB 420 entitled the Medical Marijuana Program ("MMP") which permits qualified patients and their primary caregivers to associate collectively or cooperatively to cultivate marijuana for medical purposes without being subject to criminal prosecution under the California Penal Code. Neither the CUA nor the MMP require or impose an affirmative duty or mandate upon a local government to allow, authorize, or sanction the establishment of facilities that cultivate or process medical marijuana within its jurisdiction. Under the Federal Controlled Substances Act, the use, possession, and cultivation of marijuana are unlawful and subject to federal prosecution without regard to a claimed medical need.

On October 9, 2015, Governor Jerry Brown signed the Medical Marijuana Regulation and Safety Act ("MMRSA"). The MMRSA actually consists of three different pieces of legislation, Assembly Bill 243 (Wood), Assembly Bill 266 (Bonta), and Senate Bill 643 (McGuire). Each of the bills has passed the California Legislature and were signed by the Governor. The bills were endorsed by the League of California Cities, California Police Chiefs Association, and Cannabis Industry Association. The California State Sheriffs' Association has taken a neutral position.

MMRSA provides for comprehensive state licensing and regulation of medical marijuana cultivation, processing, transportation, and distribution. MMRSA also creates a Bureau of Medical Marijuana Regulation within the Department of Consumer Affairs. It provides a dual licensing system, with the State issuing licenses and local governments issuing permits for medical marijuana dispensaries, cultivation, and delivery, beginning in 2018. Under the MMRSA, local governments retain the right to choose whether to permit or prohibit medical marijuana dispensaries.

On December 4, 2018, after studying various alternatives for the regulation of commercial cannabis and reviewing the legal status of cannabis under applicable law, the City Council approved the regulation of commercial cannabis activities in the City of Oroville. Specifically, the Council amended the Zoning Code and Business Licensing provisions to allow commercial cannabis activities in the City of Oroville.

As a result of the change in the City Council, Staff was directed by the current Mayor and incoming Mayor to place this matter on the agenda for consideration by the newly formed Council.

If approved, Ordinance 1834 will prohibit commercial cannabis activities in all zones in the City of Oroville, and Ordinance 1835 will prohibit commercial cannabis operations in the City of Oroville by eliminating the business licensing provisions.

Re: Notification of Boron in Cal Water's Oroville water system

Dear Mr. Lando,

As you know, California Water Service provides safe, reliable, and high-quality water utility service to approximately 2 million Californians, including residents and businesses in the City of Oroville. We are committed to meeting all state and federal water quality standards, each and every day.

One part of those water quality standards requires us to notify local jurisdictions if any of the water supply sources for the service area contain constituents in excess of a State Water Resources Control Board Division of Drinking Water's (DDW) "Notification Level." The Notification Level, is, quite simply, the level of a constituent in drinking water that is not considered to pose a significant health risk to people ingesting that water on a daily basis. The Notification Level is contrasted with a "Response Level," which is the level of a constituent in drinking water at which point operational changes are recommended. Both Notification and Response Levels are contrasted with Maximum Contaminant Levels, which are regulatory standards that must be met by water suppliers.

Boron is a naturally occurring element found in rocks, soil, and water that is unregulated by DDW and does not have a Maximum Contaminant Level. Based on laboratory studies, the babies of some pregnant women who drink water containing boron in excess of the Notification Level may have an increased risk of developmental effects. Given this, DDW established, in 1999, a Notification Level for boron of 1 parts per million (ppm) and a Response Level of 10 ppm.

As we have previously communicated to you, one of our four water wells in our service area contains boron at levels that exceed the Notification Level. The boron levels for this well ranged from 1.45 ppm to 1.70 ppm in 2017. However, this well did not contain water that exceeds the Response Level for boron. In addition, only about 3-percent of the water supplied to our customers in Oroville comes from our four water wells.

CALIFORNIA WATER SERVICE

Again, DDW has not established a Maximum Contaminant Level for boron, and we proactively monitor our water supply sources to identify any changes in water quality that our customers need to be informed of. If DDW does ever establish a regulatory Maximum Contaminant Level for boron, Cal Water will meet that standard, as it is committed to doing with each of DDW's other regulatory standards.

Protecting our customers' health and safety is our highest priority, and we will keep you posted of any new developments. If you have any questions, please contact Loni Lind, our Water Quality Program Manager for the area, at (530) 893-6366 or llind@calwater.com.

Sincerely,

for /
Sophie James

NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR ITS NUCLEAR DECOMMISSIONING APPLICATION (A.18-12-008)

Summary

On December 13, 2018, Pacific Gas and Electric Company (PG&E) filed its 2018 Nuclear Decommissioning Cost Triennial Proceeding application with the California Public Utilities Commission (CPUC). In this application, PG&E presents the costs that are necessary to safely and responsibly decommission Diablo Canyon Power Plant and to complete decommissioning and remediation activities associated with Humboldt Bay Power Plant Unit 3. If this application is approved, it would increase electric rates beginning in 2020.

Background

Every three years, PG&E is required to file a Nuclear Decommissioning Cost Triennial Proceeding application with the CPUC. This current application includes updated decommissioning costs since the 2015 application was filed (A.16-03-006).

This application is consistent with the CPUC's decision to retire Diablo Canyon Power Plant in 2025 to meet California's evolving energy policies and increase the use of renewable energy and energy efficiency resources.

The application includes costs related to the following:

- Planning and preparation for decommissioning activities
- Obtaining necessary regulatory approvals and permits
- Demolition and disposal of existing site facilities
- Site restoration activities
- Managing spent nuclear fuel storage until disposal by the Department of Energy
- Maintaining necessary security operations

PG&E is seeking \$417 million for each of the years covered in this application, which are 2020, 2021 and 2022.

How will PG&E's application affect electric rates?

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services. Based on rates currently in effect, the bill for a typical residential bundled nonCARE customer using 500 kWh per month would increase from \$113.64 to \$116.03, or 2.1 percent. Actual impacts will vary depending on energy usage.

Direct Access and Community Choice Aggregation customers only receive electric transmission and distribution services from PG&E. On average, these customers will see an increase of 4.2 percent.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required by law or CPUC decision to pay certain charges. On average, these customers will see an increase of 39.8 percent.

Detailed rate information is included in a bill insert being sent directly to customers in December 2018 and January 2019.

How do I find out more about PG&E's proposals?

If you have questions about PG&E's filing, please contact PG&E at 1-800-743-5000. For TTY, call 1-800-652-4712. Para más detalles llame al 1-800-660-6789 • 詳情請致電 1-800-893-9555. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

CPUC process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Public Advocates Office (CalPA) at the CPUC may review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering. For more information about CalPA, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov or visit CalPA's website at www.publicadvocates.cpuc.ca.gov.
